

Shoreditch gives us 'Affordable Luxury'

The Parlour suggested its time to give their clients, both old and new, something to look forward to. Their team has topped expectations by organising a bigger and even better re-launch giving clients 'Affordable Luxury'.

"Come and enjoy the same high-quality treatments at a fraction of the price"

The spectacular evening was fun-filled with Champagne, canapés and complimentary hair & beauty treatments. Plus professional dancer Miss Daisy Deluxe showcased at the event as they launched new **'Beauty & Burlesque'** party packages, which include a master class, vintage hair, make-up & nail paint – perfect for those sassy hen nights!

If that doesn't sound good enough, they even had Dermalogica skin mapping on the night, revealing deep skin secrets and L'Oreal representative introducing their brand new, revolutionary and 100% ammonia free, hair colour 'Iona' exclusively to The Parlour!

Attendees on the night included The Daily Mail, Marie Claire, In-Style, Elle and Cosmopolitan. Many of the local businesses also joined to support The Parlour with their new pricing venture. They were all completely brought in by the excellence in service, the chick decor and were ecstatic about the new recession proof costs!

"The idea of reducing our prices, rewarding you and making you as our customer feel special, enlightens us – so come and experience the magic for yourself!"
